Numerator and Denominator Answers

1. Numerator and Denominator 1 with Circles

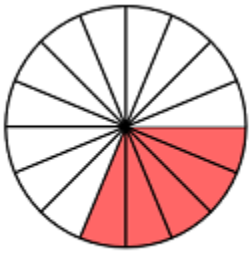
1. $\frac{1}{6}$
2. $\frac{4}{6}$
3. $\frac{5}{6}$
4. $\frac{6}{6}$
5. $\frac{2}{3}$
6. $\frac{6}{9}$
7. $\frac{5}{16}$
8. $\frac{15}{16}$
9. $\frac{5}{8}$
10. $\frac{5}{10}$

2. Numerator and Denominator 1 with Lines

1. $\frac{5}{8}$
2. $\frac{7}{8}$
3. $\frac{2}{3}$
4. $\frac{2}{5}$
5. $\frac{7}{12}$
6. $\frac{12}{12}$
7. $\frac{5}{8}$
8. $\frac{1}{12}$
9. $\frac{7}{16}$
10. $\frac{9}{16}$

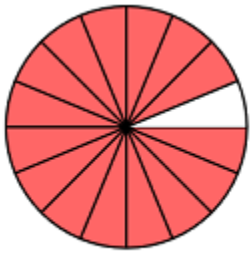
3. Numerator and Denominator 2 with Circles

1.



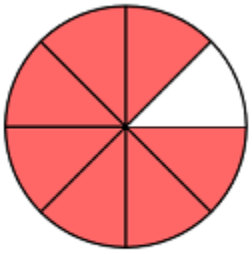
$\frac{5}{16}$ of the circle is shaded.

2



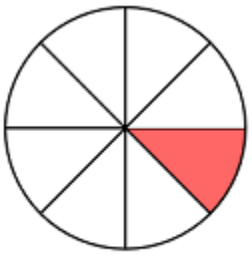
$\frac{15}{16}$ of the circle is shaded.

3.



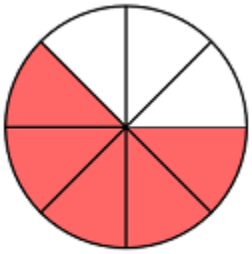
$\frac{7}{8}$ of the circle is shaded.

4.



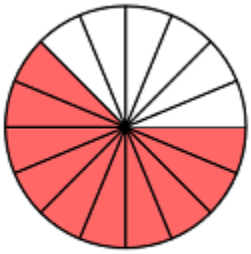
$\frac{1}{8}$ of the circle is shaded.

5.



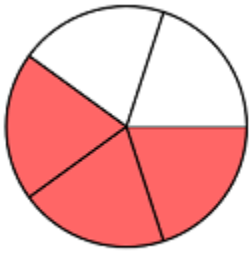
$\frac{5}{8}$ of the circle is shaded.

6.



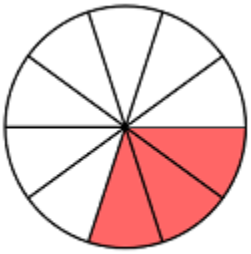
$\frac{10}{16}$ of the circle is shaded.

7.



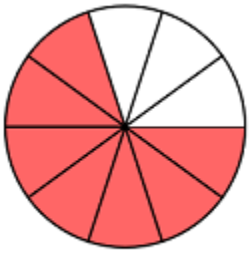
$\frac{3}{5}$ of the circle is shaded.

8.



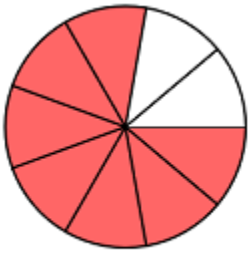
$\frac{3}{10}$ of the circle is shaded.

9.



$\frac{7}{10}$ of the circle is shaded.

10.



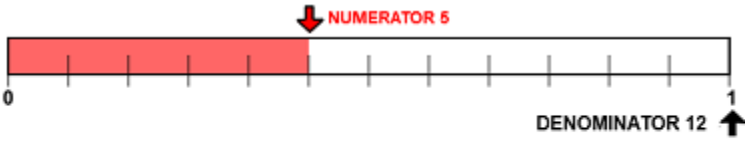
$\frac{7}{9}$ of the circle is shaded.

4. Numerator and Denominator 2 with Lines

1.

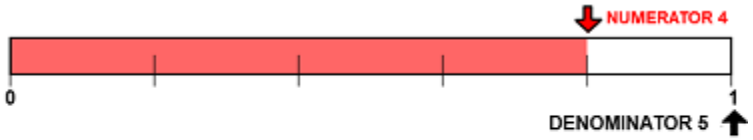
$\frac{5}{6}$ of the distance from 0 to 1 is shaded.

2.



$\frac{5}{12}$ of the distance from 0 to 1 is shaded.

3.

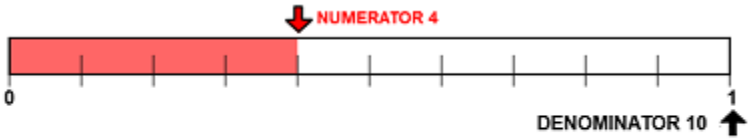


$\frac{4}{5}$ of the distance from 0 to 1 is shaded.

4.

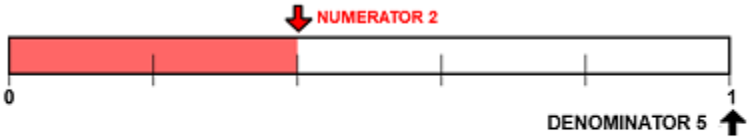
$\frac{3}{5}$ of the distance from 0 to 1 is shaded.

5.



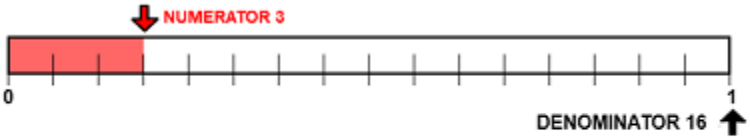
$\frac{4}{10}$ of the distance from 0 to 1 is shaded.

6.



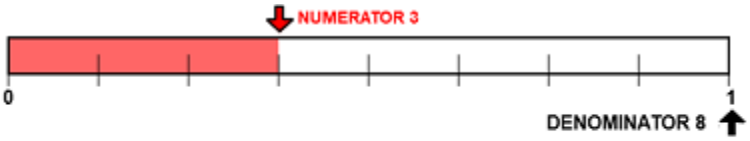
$\frac{2}{5}$ of the distance from 0 to 1 is shaded.

7.



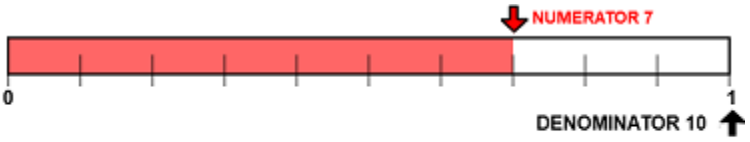
$\frac{3}{16}$ of the distance from 0 to 1 is shaded.

8.



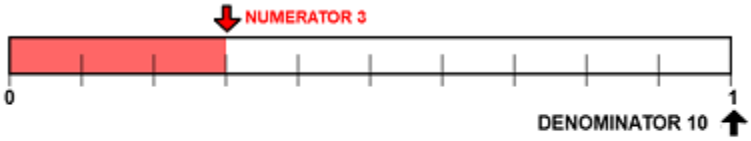
$\frac{3}{8}$ of the distance from 0 to 1 is shaded.

9.



$\frac{7}{10}$ of the distance from 0 to 1 is shaded.

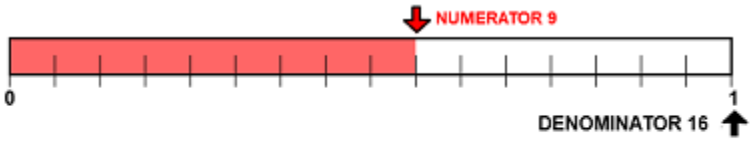
10.



$\frac{3}{10}$ of the distance from 0 to 1 is shaded.

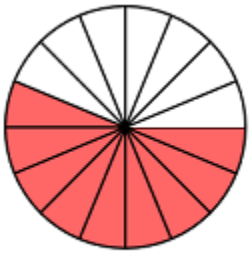
5. Numerator and Denominator with Circles and Lines

1.



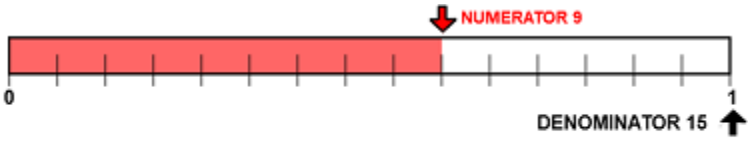
$\frac{9}{16}$ of the distance from 0 to 1 is shaded.

2.



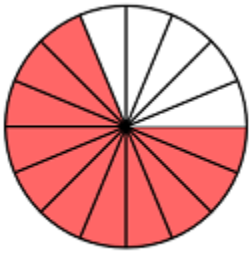
$\frac{9}{16}$ of the circle is shaded.

3.



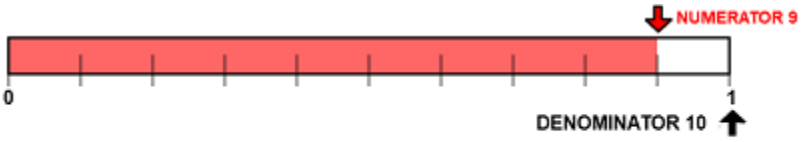
$\frac{9}{15}$ of the distance from 0 to 1 is shaded.

4.



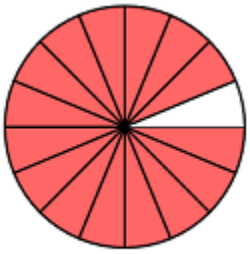
$\frac{11}{16}$ of the circle is shaded.

5.



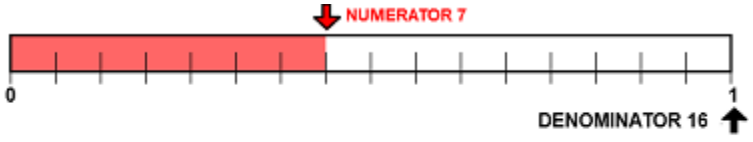
$\frac{9}{10}$ of the distance from 0 to 1 is shaded.

6.



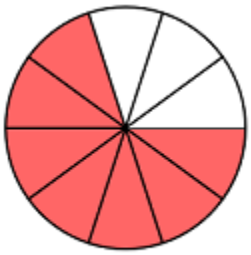
$\frac{15}{16}$ of the circle is shaded.

7.



$\frac{7}{16}$ of the distance from 0 to 1 is shaded.

8.

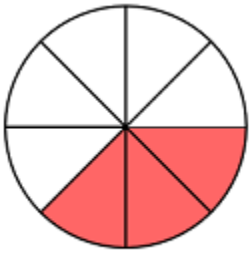


$\frac{7}{10}$ of the circle is shaded.

9.

$\frac{5}{8}$ of the distance from 0 to 1 is shaded.

10.



$\frac{3}{8}$ of the circle is shaded.
